2 x Network Distribution Rack for Department of Inclusive Education

Minimum specification for Network Distribution Racks

Size:	9U Network Distribution Racks
Accessories:	• 1 x Universal PDU with UK power plug input • Wall mounting accessories included • 3 x Cable Management 1U • 2 x 24 port CAT6 patch panels
Features:	The rack must include a physical locking mechanism
Installation:	• Installation of the rack to be completed by supplying party • Install two racks side by side horizontally. Cabling from one rack must be able to pass through to the adjacent rack. If the side panels of the racks are not removable, openings must be cut on both sides of the racks to allow cable passthrough. • Installation of all 4 patch panels into designated 9U rack(s) • All patch panel ports must be clearly labeled • Labeling must be done in accordance with industry best practices • All cable terminations at both ends must be tested to verify proper connectivity. • All cabling must be neatly routed, securely fastened, and correctly connected. • Must be compatible with and support installation in 9U Network Distribution Racks
Site Survey:	Site surveying to be carried out by Vendor prior to installation

Data Points Installation Details

Data Points Installation:	• All data points must be installed at the locations indicated in the drawing and in accordance with the “Data Points” diagram. • The vendor must refer to the “Data Points” diagram for the information, instructions and exact number and locations of all data points. • The vendor is to use all necessary materials required to complete the installation.
----------------------------------	---

Electrical Sockets for Department of Inclusive Education

Electrical Sockets:	• All electrical sockets must be installed at the locations highlighted in the drawing and in accordance with the “Electrical Sockets_Revised” diagram. • The vendor must refer to the “Electrical Sockets_Revised” diagram for the information, instructions and exact number and locations of all electrical sockets. • The vendor is to use all necessary materials required to complete the installation.
