MINISTRY OF EDUCATION  
Republic of Maldives

## FOREWORD

The Ministry of Education currently moves forward with the *five educational pledges* in the manifesto of the present government laying great emphasis : to ensure all children across the country receive quality and unbiased education leaving no child behind; making sure that every youth is skilled; guaranteeing reputed schools with adequate resources throughout the country; ensuring higher education opportunities for all eligible students; and ensuring that skills related to economic revolutions are instilled within the children of the nation.

School statistics provide the true figures that would no doubt, facilitate in achieving the targets of the education sector involving the five pledges. *School Statistics* issued by the Ministry of Education since 1986 has been providing important information to policymakers, educational planners, administrators, researchers and other stakeholders with effective statistical information as it is believed that statistics provide the data to measure, control and communicate uncertainty directing the course of scientific and societal advances.

The Ministry of Education takes the pride of issuing *School Statistics 2016* to present the latest figures of school based statistics that would further enhance the successful implementation of the programs and projects by the respective agents of the government as well as the NGOs and private agencies that contribute wholeheartedly to the betterment of the Maldivian society at large.

Policy, Planning and Research Division of the Ministry of Education appreciate the contributions made by the schools for providing the data necessary for this compilation. The various bodies within the Ministry of Education are mentioned in this word of appreciation for their valuable contribution and continuous support offered all throughout in the preparation of this book. The Ministry of education would also like to extend a word of gratitude to National Bureau of Statistics (NBS) for providing data on population.

It is hoped that *School Statistics 2016* will serve its purpose well in providing significant statistical information to various agents of the education sector.

AGE- SPECIFIC ENROLMENT RATES BY GENDER, 2015

GENDER PARITY INDEX (GPI) BY LEVELS

Levels

Note: The closer the GPI is to 0, the greater is the gender disparity in favour of males. A GPI of 1.0 on the other hand, indicates gender parity. A GPI greater than 1.0 indicates a gender disparity in favour of females, meaning more females than males attend school.
